SCHOOL COMMITTEE

Seated: Mr. Rist, Mrs. Blomstrom, Mr. McGillicuddy. Standing: Mr. McKay, Mr. Hill, Dr. Recupero, Mr. Gibbons.

To the Class of 1971:

As chairman of the school committee and an alumna of Stoughton High School, I am particularly proud to be able to extend the best wishes of the committee to each and every one of you.

The citizens of this community have invested in a system of education that challenged your intellectual and physical needs. It is through education we learn to communicate and once able to communicate we can understand the needs of each other.

People are people the world over, basically created with the same desires and goals. They want the opportunity to live and work and gain some measure of self esteem.

The torch is passed to you the students of the 70's to help make this a better world to live in through education.

Those of you who will prepare to teach—yours will be the job of molding better citizens. Those of you entering the armed forces—you will be given the opportunity of presenting yourself as an example of an American to peoples the world over. Those of you who will enter government service or politics—it will be up to you to initiate legislation that will insure equal education to all peoples.

With the job of educating all our people begun, the journey to peace on earth will be much more attainable.

Congratulations

Joanne G. Blomstrom

JOANNE G. BLOMSTROM
Chairwoman
Stoughton School Committee

SUPERINTENDENT

To the Class of 1971:

Not so very long ago education was referred to as a kind of "preparation for life" as though life really began when the student clasped his diploma in hand. In a very real sense, education is life itself and learning a lifelong process. To be a vibrant, creative, dynamic citizen is to be a person who is intellectually alive throughout the entire developmental span of life.

To realize that now is the hour in which one can begin to contribute to his nation and to the society of man is to understand the real meaning of education in a democratic society. Many of you have already established roots of service in tutoring our elementary children and your own peer group, your class projects have included aid for the needy, and you have manifested a spirit of cooperation which is basic to mutual understanding and good will. The immediate outcomes of your education as demonstrated by your attitudes toward others, your social awareness, and your behavioral performance have very real meaning. Seemingly, there is an important correlation between the citizen you now are and that mature citizen you will be in future years. Trends indicate that as youth is able to assume responsibility in a positive way, still, further responsibility will be given.

All of you realize that in your senior year, the High School was evaluated and received a high honor in being granted a Continued Membership in the New England Association of Colleges and Secondary Schools. The Visiting Committee, in its report, expressed high regard for the student body of Stoughton Senior High School. Many members of the Visiting Committee, along with your teachers, made note of the excellent leadership role assumed by the Senior Class. You were evaluated in considerable depth and were not found wanting.

In closing, may I extend to each of you my personal best wishes for your future success and happiness.

Sincerely,

Joseph H. Gibbons

JOSEPH H. GIBBONS
Supt. of Schools

PRINCIPAL

To The Class of 1971:

I hope that your experiences at Stoughton High School have made you better and happier people.

While you have been members of our school community, you have also been members of the world community. The school presented such matters as curriculum, scholarship, extra-curricular activities, and people. As members of the world community, you were exposed to war, politics, violence, and uncertainty. But all of these things change.

Even though change may not solve problems, it will cause you to think. In doing so, you will criticize policy. Again, you may think positively. The world can be beautiful—if you will contribute and not mind a touch of misery now and then.

We do have controversy. If you will study the problems, try to envision the issues from all points of view, and always do your best, you should have no regrets.

May I wish you happiness and good health in the years to come.

Sincerely,

Peter J. Sperandio

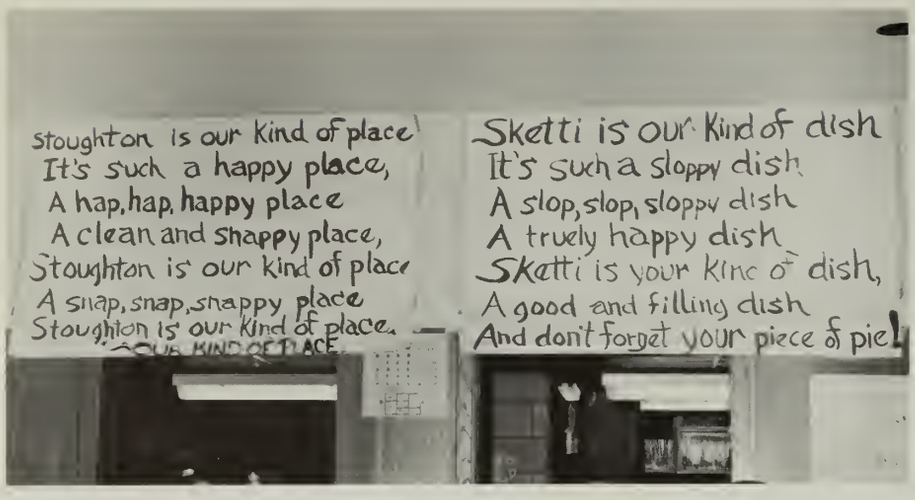
JUNIOR PROM

NOW . . .

. . . AND THEN



Sung to the tune: "Stoughton's Golden Arches"

O.K., we're sending out for Chinese food. Who wants what? Let me see; we have two Chow Meins and . . .

Hey! Did you say wait till it hardens?

To shove or not to shove?

Remember, Jeff, don't tell anybody about the golfball in the sauce.

All right—Who's the wise guy with the meatballs in the pockets??

SKETTI SUPPER– NOVEMBER 14, 1970

The "Rockettes" of Stoughton High.

Are they dead yet?

They want spaghetti and it isn't even Wednesday yet!

Did you see that! I spilled some coffee on the table and it burnt a hole right through.
